Features Comparison	Basic 5-level alkaline output plus pure water setting. 1 micron filter.	The Venus is a solid, reliable unit with the latest technology. It has nice features including automatic cleaning, state of the art electronics, patented polymer ion separation technology, touch screen and water control knob . Exceptional value from and exceptionl company.	The advantage of Tourmaline BioStone means that your Neptune (and Melody) are supercharged in all functions. The Neptune is the new, upgraded version of the Microlite (now 2 years old). The Neptune has nicer features, state of the art electronics and patented polymer ion separation technology with calcium port and stronger plating. Has built-in newest flux sensor unique to 2005+ models.	The advantage of Tourmaline BioStone means that your Melody is supercharged in all functions. Built-in newest flux sensor unique to 2005 models. State of the art electronics and patented polymer ion separation technology. Very user friendly. As well as offering all the features of, other models it also has patented ability to allow user to continue using while system is self-cleaning. Guaranteed to be the most reliable, durable ionizer on the market. ORP has been tested to -800 (an industry record). The Melody was, by far, the most popular	The advantage of Tourmaline BioStone means that your Aquarius or Orion is supercharged in all functions. As well as having all that Melody offers, the Orion / Aquarius offer new mesh coating on cells giving even stronger ionization, automatic flow adjustments to ensure same pH with different water and the patented DARC system for ultra cleaning. The DARC system eliminates mineral scaling protecting your long term performance. The only model available with true one-touch operation (if installed direct to cold water you just hit Power). Guaranteed to be the most	The advantage of Tourmaline BioStone means that your Delphi is supercharged in all functions. As well as having all that Melody offers, the Delphi offers new mesh coating on cells giving even stronger ionization, automatic flow adjustments to ensure same pH with different water and the patented DARC system for ultra cleaning. The DARC system eliminates mineral scaling protecting your long term performance. Inbuilt flow control valve to automatically control and create the ideal water pressure. Fully featured undersink ionizer, there is
Summary	If value is what you are looking for, the <i>Technos</i> is the least expensive quality water ionizer sold on the market. It is a good, no-frills workhorse unit that will provide you quality water at an affordable price.	Jupiter, the <i>Venus</i> is worth the extra money. It replaces the Micolite (on market 5 years) and has the features that earlier models do not have - a better filter, stronger ionized water, modern features, fully-automatic cleaning and impeccable, updated technology. If you don't mind spending some extra money, then the Venus is the way to go. Very easy to use push buttons and quality design	The <i>Neptune</i> is a proven value investment. It has the features that earlier models do not have - a better filter, stronger ionized water, modern features, fully-automatic cleaning and impeccable, updated technology. If finances are a consideration, then the Neptune is the way to go. Very easy to use push buttons and quality design.	best value ionizer available then the <i>Melody</i> is for you. Enjoy the exceptional filtering capacity, and constant alkaline water, even when it is cleaning. Uses the most advanced patented output technology, LED display and micro-technology. Can be connected to faucet or directly plumbed. High quality finish upgraded in 2007. The Melody is simply excellent in all ways, and we believe it is the best value	the best of the best, then the Orion or Aquarius is for you. Same quality Jupiter Science technology inside - different look outside. Enjoy the exceptional filtering capacity, and constant alkaline water even when it is cleaning. Has all that other models on market offer, plus much more. High quality finish to suit any kitchen. The Orion/ Aquarius are simply excellent in all ways and we are confident they are the	If you are interested in a top of the line ionizer, which is still value priced, and do not want clutter on your kitchen counter... then this is the water ionizer for you. High quality, discreet and elegant chrome plated tower that is activated by an easy-to-use pad.
